DON'T PUT YOUR FOOT IN IT.

The fellow who goes prowling around the house at midnight, without a light, is dead sure to find trouble laying for him at every step. He doesn't realize it though, till he puts his foot into it—or stubs his big toe against it.

The man who is going to need lumber this season, and fails to buy NOW, is groping in the dark. He may not recognize it till prices advance again, when he'll see, mighty clearly, that he's gone and "put his foot in it."

This is your lamp. It says, buy now.

An exchange not many miles from Yale had better use all "W. P. clippings and boiler plate" than to print the insulting, silly, incomprehensible, original stuff it has had in recent issues about the cooking school.

The game of foot ball played at Mariette last Saturday resulted in another defeat for our boys. Score 29-0. This was not unexpected and our citizens will not blame the boys when it is known that only about one-half of the regular home team was able to go. A return game will be played in Yale on the 21st of this month when we expect to see some doings.

The annual meeting of the Ward Hunting Club was held at Fargo Sunday last. All of the members from Yale were present, also A. J. Ward and wife of Avoca. No decision was arrived at as to where the club would pitch its tents for the annual deer hunt this fall. While at Fargo the club enjoyed the genuine hospitality of Mr. and Mrs. Chas. Torson at Hotel Fargo where the day was spent most pleasantly.

M. Buell, of Detroit, has been spending the week with his son-in-law, W. J. Harty, who resides on the John D. Jones farm north-east of here. Mr. Buell is timekeeper at the Solway Process Works, a large institution in the suburbs of Detroit. He made the Expositor office a pleasant call and in conversation said that he had been looking over Yale and was favorably impressed with the up-to-date condition of the place, that in his opinion the town had bright prospects before it and he would not be surprised if we saw Yale a thriving city before many years. Should oil be secured the town would forge ahead at a rapid rate.

Brookway cemetery No. 2 has had but very little attention of late years and is grown up with rank weeds, the fences are in a dilapidated condition and the general appearance is very unsightly. Some of those who have loved ones buried therein have started a movement whereby the grounds will be cleaned, the side and end fences repaired and a neat new fence built along the front. This cannot be done without the help of those who are interested either directly or indirectly. It takes money and a lot of work to further such an undertaking therefore it is earnestly hoped that all who feel so disposed will do what they can. Don't let this matter drop at the start but bring it to a successful termination.

As was announced in last week's Expositor, Brookway Lodge, No. 316, F&AM, visited Elk Lodge at Peck on Tuesday evening and conferred the Master Mason degree on W. L. VanConant, son of our townsman W. L. VanConant. About 30 members from Yale lodge were present, besides many from their own and nearby lodges. The work was well carried out and the exemplification of the degree enjoyed by all. After lodge closed everybody present was invited to repair to the New Elk Hotel where preparations had previously been made for a bountiful supper which seemed to just fit the appetites of a hungry lot of brothers and fellows. These social functions help in a wonderful way to keep up the good-fellowship between sister lodges and we hope to see more of just such good times as was had Tuesday night.

About twenty ladies were entertained by Mrs. J. E. Howitt at her home on Monday afternoon, in honor of Miss Jarrard. For amusement the ladies were shown a number of alluring advertisement pictures tacked around the walls and were told to guess what each picture advertised. In this Mrs. R. G. McLaughlin took first prize, having nine out of twelve correct. After this all were given cards with the name of an animal written on it and a stick of gum. The gum was to be chewed, then formed as well as each one knew how into the shape of the animal. The judges found a tie between Mrs. Kellogg's kangaroo and Mrs. Menzies' cat, so lots were cast and the former drew the prize, a package of gum. These games served to create a heap of fun as it was intended and all enjoyed them immensely. Mrs. Howitt served a delicious lunch in the dining room, the table being draped and decorated with pink ribbon and pink and white carnations and similar.

The four course supper given by Miss Jarrard's cooking class in the diningroom of the Presbyterian church Friday evening was largely attended and a goodly sum taken in. After expenses in connection with the cooking school are all paid the L. H. S. find a nice little balance in its favor. The cooking school has served a good course of instruction given of much value and in many practical ways are making use of the knowledge and experience received.
